IMPACT BRISTOL

Discover your next creative idea at our Bristol location in the Spectrum Building. This inspiring workspace is at the heart of a vibrant city, where art meets technology.

The industrial elegance of the interior inspires creative thinking and collaboration among other entrepreneurial spirits. With strong green credentials, Bristol is the UK's greenest City and one of Europe's best performers, the perfect location to bring to life our pilot offices. Here is what's in store for you as a member:
