IMPACT READING

IMPACT READING

Recently, Reading has established itself as the UK's number one regional technology centre, which has been propelled by its high-value knowledge economy and proximity to London.

Located at the top of Blagrove Street and less than a hundred yards from the entrance to Reading mainline train station, R+ is the next step in the Impact Working evolution. Having recently secured a BREEAM 'excellent' rating and an A-Class EPC rating, R+ adheres to our strict company values and is the latest acquisition in our goal to secure some of the greenest buildings available.

1

LOCATION

Spread across 16,071 SqFt, R+ offers the usual Impact blend of private office suites, dedicated desks and on-demand coworking, with meeting rooms for hire, private telephone booths and a wellness studio (with free classes) on site.

2

FEATURES

Wellness Studio

Free Yoga and HIIT classes

Shower and changing rooms

Close to bars and restaurants

City centre location

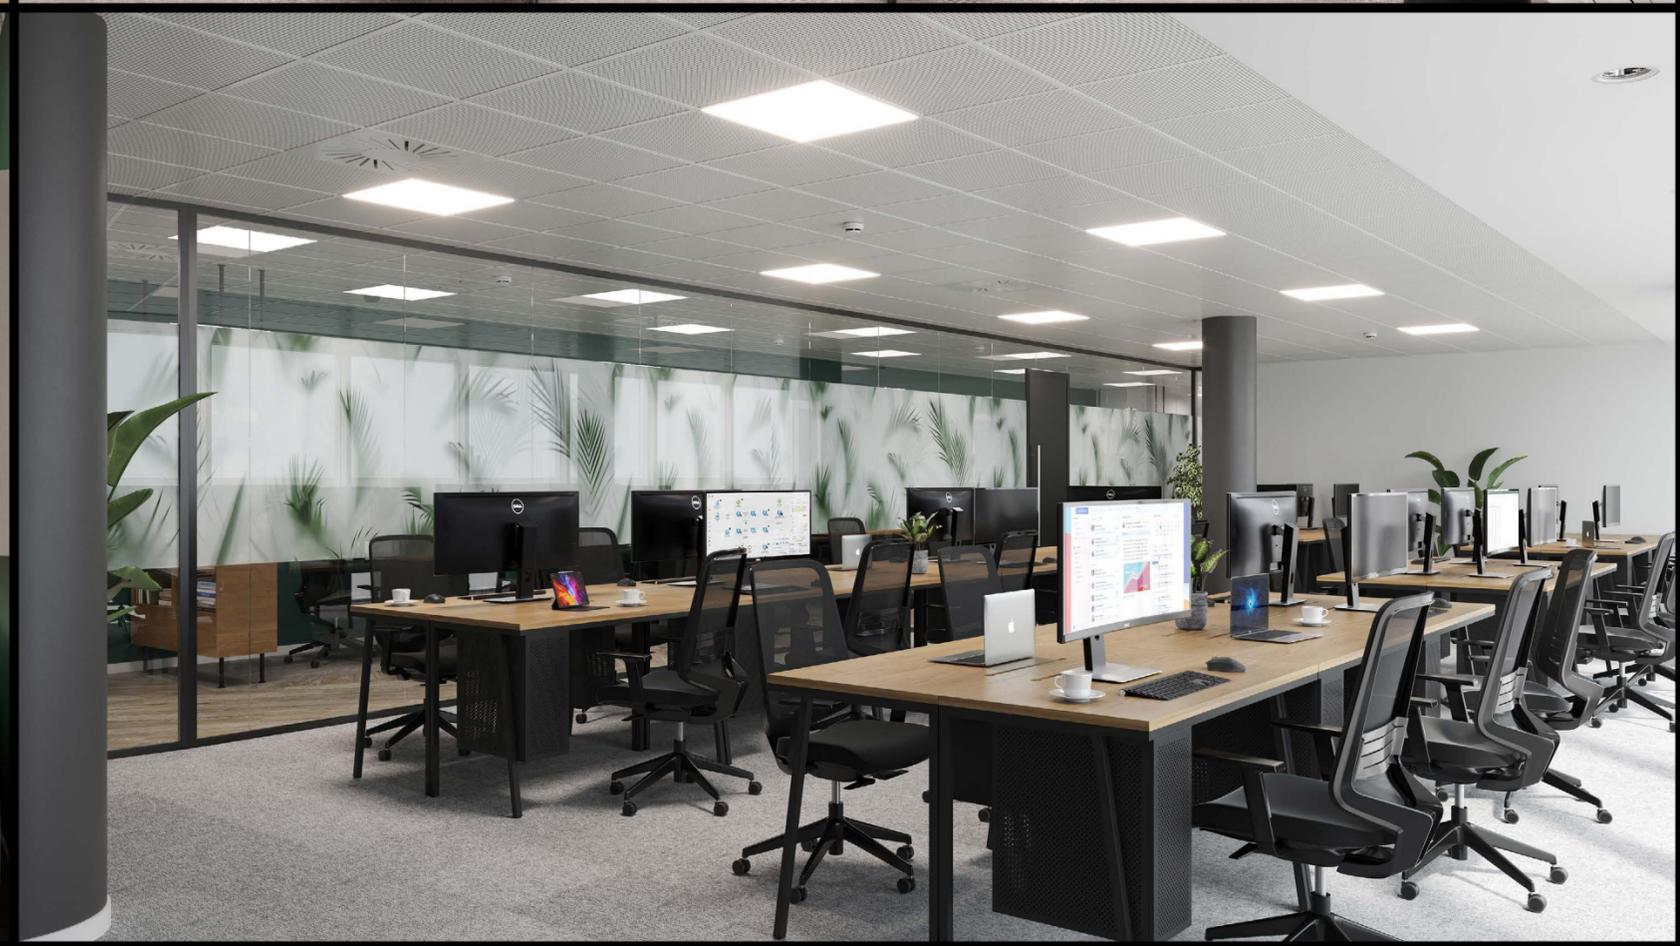

50 meters from Reading mainline station

3

VIBE

Nestling between the train station and the street food market at Forbury Gardens, R+ offers the perfect blend of amenity and community.

Reading was formerly known for the '3Bs' - biscuits, beer and bulbs - but, in recent times, it has reinvented itself as the UK's largest tech economy, with the influence seen throughout the community and our members at the location.
